

## **Celsion Corporation to Hold Year-End 2021 Financial Results and Business Update Conference Call on Thursday, March 31, 2022**

March 24, 2022

**LAWRENCEVILLE, N.J., March 24, 2022 (GLOBE NEWSWIRE) --** [Celsion Corporation](#) (NASDAQ: CLSN), a clinical-stage development company focused on DNA-based immunotherapy and next-generation vaccines, announced today that the Company will host a conference call at 11:00 a.m. ET on Thursday, March 31, 2022 to discuss financial results for the year ended December 31, 2021 and provide an update on product development programs with GEN-1, a DNA-based immunotherapy, currently in Phase II development for the localized treatment of advanced ovarian cancer and PLACCINE, a proprietary synthetic, non-viral vaccine delivery technology currently in preclinical studies. Celsion has two platform technologies for the development of novel nucleic acid-based immunotherapies and next generation infectious vaccines.

To participate in the call, interested parties may dial 1-888-394-8218 (Toll-Free/North America) or +1-323-794-2588 (International/Toll) and ask for the Celsion Corporation Fourth Quarter 2021 Earnings Call (Conference Code: 7900710) to register ten minutes before the call is scheduled to begin. The call will also be broadcast live on the internet at [www.celsion.com](http://www.celsion.com). The call will be archived for replay on Thursday, March 31, 2022, and will remain available until April 14, 2022. The replay can be accessed at +1-719-457-0820 or 1-888-203-1112 using Conference ID: 7900710. An audio replay of the call will also be available on the Company's website, [www.celsion.com](http://www.celsion.com), for 90 days after 2:00 p.m. ET Thursday, March 31, 2022.

### **About Celsion Corporation**

Celsion is a fully integrated, clinical stage biotechnology company focused on advancing a portfolio of innovative cancer treatments, including immunotherapies and DNA-based therapies; and a platform for the development of nucleic acid vaccines currently focused on SARS-CoV2. The company's product pipeline includes GEN-1, a DNA-based immunotherapy for the localized treatment of ovarian cancer. ThermoDox<sup>®</sup>, a proprietary heat-activated liposomal encapsulation of doxorubicin, is under investigator-sponsored development for several cancer indications. Celsion also has two platform technologies for the development of novel nucleic acid-based immunotherapies and other anti-cancer DNA or RNA therapies. Both are novel synthetic, non-viral vectors with demonstrated capability in nucleic acid cellular transfection. For more information on Celsion, visit [www.celsion.com](http://www.celsion.com).

### **Forward-looking Statements**

*Forward-looking statements in this news release are made pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These statements are subject to a number of risks and uncertainties, many of which are difficult to predict, including, unforeseen changes in the course of research and development activities and in clinical trials; the uncertainties of and difficulties in analyzing interim clinical data, particularly in small subgroups that are not statistically significant; FDA and regulatory uncertainties and risks; the significant expense, time and risk of failure of conducting clinical trials; the need for Celsion to evaluate its future development plans; possible acquisitions or licenses of other technologies, assets or businesses; possible actions by customers, suppliers, competitors or regulatory authorities; and other risks detailed from time to time in the Celsion's periodic filings with the Securities and Exchange Commission. Celsion assumes no obligation to update or supplement forward-looking statements that become untrue because of subsequent events, new information or otherwise.*
