SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires the Company's executive officers and directors and persons who beneficially own more than 10% of a registered class of our equity securities to file reports with the SEC regarding ownership and changes in ownership of such equity securities. Executive officers, directors and greater than 10% stockholders are required by SEC regulations to furnish to us copies of all reports that they file pursuant to Section 16(a). Based solely on our review of the copies of such forms furnished to us with respect to our fiscal year ended December 31, 2015, and on our discussions with directors and executive officers, we believe that, during the fiscal year ended December 31, 2015, all applicable Section 16(a) filing requirements were timely met except one form 4 was inadvertently filed late by Dr. Voss reporting a stock option grant by the Company.

CODE OF ETHICS

The Company has adopted a Code of Ethics and Business Conduct (the "Code of Ethics") applicable to its directors, officers, including the Chief Executive Officer, Chief Financial Officer, Chief Accounting Officer and other officers performing similar functions, and employees. This Code of Ethics constitutes a code of ethics applicable to senior financial officers within the meaning of the Sarbanes-Oxley Act of 2002 and SEC rules. In the event of any amendments to or waivers of the terms of the Code of Ethics, such matters will be posted promptly to the Company's website in lieu of disclosure on Form 8-K in accordance with Item 5.05(c) of Form 8-K.

BOARD LEADERSHIP STRUCTURE AND ROLE IN RISK OVERSIGHT

Board Leadership

Our Board of Directors believes that it is important to select its Chairman of the Board and the Company's Chief Executive Officer in the manner it considers in the best interests of the Company at any given point in time. The members of the Board possess considerable business experience and in-depth knowledge of the issues the Company faces and are therefore in the best position to evaluate the needs of the Company and how best to organize and adopt the Company's leadership structure to meet those needs. Accordingly, the Chairman and the Chief Executive Officer may be filled by one individual or by two different individuals, and the Chairman may be a Company insider or an independent director. Mr. Tardugno serves as Chairman of the Board, President and Chief Executive Officer of the Company. Currently, all the other directors of the Board are independent under applicable SEC and NASDAQ rules. The Company has not appointed a lead independent director. The Board believes that the Company and its stockholders have been well served by the current leadership structure due to Mr. Tardugno's experience and in-depth knowledge of the Company and the industry.

Board Oversight of Risk

The Board of Directors is responsible for oversight of the various risks facing the Company. In this regard, the Board seeks to understand and oversee the most critical risks relating to our business and operations, allocate responsibilities for the oversight of risks among the full Board and its committees, and see that management has in place effective systems and processes for managing risks facing the Company. Overseeing risk is an ongoing process, and risk is inherently tied to our strategy and to strategic decisions. Accordingly, the Board considers risk throughout the year and with respect to specific proposed actions. The Board recognizes that it is neither possible nor prudent to eliminate all risk. Indeed, purposeful and appropriate risk-taking is essential for the Company to be competitive and to achieve its business objectives.

While the Board oversees risk, management is charged with identifying and managing risk. We have robust internal processes and a strong internal control environment to identify and manage risks and to communicate information about risk to the Board. Management communicates routinely with the Board, Board committees and individual directors on the significant risks identified and how they are being managed. Directors are free to, and indeed often do, communicate directly with senior management.

The Board implements its risk oversight function both as a whole and through delegation to various committees. These committees meet regularly and report back to the full Board. The Audit Committee oversees the management of financial, accounting, internal controls, disclosure controls and the engagement arrangement and regular oversight of the independent auditors. The Compensation Committee is responsible for the design and oversight of the Company's compensation programs. Based on a review of our company-wide compensation programs, including the compensation programs for our executive officers, the Compensation Committee has concluded that these programs do not create risks that are likely to have a material adverse effect on the Company. The Nominating and Governance Committee periodically reviews the Company's corporate governance practices, including the risks that those practices are intended to address. It also periodically reviews the composition of the Board of Directors to help ensure that a diversity of skills and experiences is represented by the members of the Board of Directors taking into account the stage of growth of the Company and its strategic direction.

Good Governance Practices

Our Board has a commitment to strong and sustainable corporate governance. As such, we continuously review our practices to ensure effective collaboration of management and the Board. Highlights of the Board's best practices are:

- Six of the seven Board directors, including two director nominees, are independent;
- The Board has adopted and published committee charters (charters are available at www.celsion.com);
- The Board conducts an annual self-evaluation and a review of Board Independence;
- The Board Committees conduct annual self-evaluations that are reviewed by the Corporate Governance Committee and the Board of Directors;
- New directors participate in an orientation program and receive a current state briefing before their first Board Meeting;
- We have stock ownership and stock retention guidelines for our directors;
- We have policies and practices to specifically align executive compensation with long-term shareholder interests;
- We have a policy prohibiting hedging and pledging for our officers and directors;
- An executive compensation clawback policy was adopted by the Board in 2014;
- The Board reviews management talent and succession annually with the CEO; and
- There is no automatic enhancement of executive incentive compensation upon a change-in-control.

COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors presently maintains separately designated Audit, Compensation, and Nominating and Governance Committees.

Audit Committee

The Audit Committee consists of Mr. Frederick J. Fritz, (Chairman), Dr. Augustine Chow and Dr. Alberto R. Martinez. The Audit Committee operates under a written charter as amended and restated effective May 4, 2007. A copy of the charter, as may be amended from time to time, is available on our web site, located at <http://www.celsion.com>. Additional copies of the charter are available upon written request to the Company. All members of the Audit Committee meet the independence standards established by the SEC and NASDAQ.

The Audit Committee assists the Board in fulfilling its responsibility to oversee management's implementation of the Company's financial reporting process. In discharging its oversight role, the Audit Committee reviewed and discussed the audited financial statements contained in the Company's 2015 Annual Report on Form 10-K with the Company's management and the Company's independent registered public accounting firm. Management is responsible for the financial statements and the reporting process, including the system of internal controls. The Company's independent registered public accounting firm is responsible for expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States.

The Board of Directors has determined that Mr. Fritz is qualified to serve as the "audit committee financial expert" as defined by Item 407(d)(5) of Regulation S-K and that Drs. Chow and Martinez meet the financial literacy requirements under applicable NASDAQ rules.

Compensation Committee

The Compensation Committee is responsible for establishing and administering the compensation policies applicable to the Company's directors, officers and key personnel, for recommending compensation arrangements to the Board of Directors and for evaluating the performance of senior management. The Compensation Committee operates under a written charter effective as of December 24, 2003. A copy of the charter, as may be amended from time to time, is available on our web site, located at <http://www.celsion.com>. Additional copies of the charter are available upon written request to the Company. The Compensation Committee does not delegate the authority to approve compensation policies and actions affecting the Company's named executive officers or directors. The Compensation Committee applies discretion in determining compensation for the Company's executives. The Compensation Committee has not established any equity or other security ownership requirements or guidelines in respect of its executive officers. The Chairman, President and Chief Executive Officer assists the Compensation Committee in evaluating the performance of other executive officers and by providing information to directors as and when requested, such as salary surveys and compensation paid by the Company's competitors, to the extent such information is publicly available. Members of the Compensation Committee undertake to verify such information prior to referring to it in determining executive compensation. The compensation of the Chairman, President and Chief Executive Officer is determined by the Compensation Committee based on the Compensation Committee's evaluation of his performance and with reference to such external or competitive data as they consider necessary. The compensation of the other named executive officers is determined by the Compensation Committee based on its evaluation of their individual performance and the recommendations of the Chairman, President and Chief Executive Officer.

Mr. Hooper (Chairman) and Drs. Chow and Martinez currently comprise the Compensation Committee. All members of the Compensation Committee are independent under the applicable NASDAQ rules.

Nominating and Governance Committee

The Nominating and Governance Committee is responsible for identifying and recruiting new members of the Board of Directors when vacancies arise, identifying and recruiting nominees for election as directors, reconsideration of incumbent directors in connection with nominations for elections of directors and ensuring that the Board of Directors is properly constituted to meet its corporate governance obligations. The Nominating and Governance Committee operates under a written charter effective as of December 24, 2003 and amended on February 27, 2006. A copy of the charter, as may be amended from time to time, is available on our web site, located at <http://www.celsion.com>. The current members of the Nominating and Governance Committee are Mr. Fritz and Dr. Martinez, each of whom is deemed to be independent under applicable NASDAQ rules.

Science and Technology Committee

The primary purpose of the Science and Technology Committee is to assist the Board of Directors in monitoring the state of science and technology capabilities within the Company and associated risks, and overseeing the development of key technologies and major science and medicine-driven innovation initiatives essential to the long-term success of Celsion. The Science and Technology Committee's responsibilities includes reviewing technologies and technology programs of significance to the Company, with special focus on major external initiatives, observing the evolution of science and medicine outside the Company, participating in the development of metrics to assess the state of Celsion science and technology in subject areas including, but not limited to, patent estate, freedom to operate, productivity, capability and external benchmarks, providing guidance for the Company's external science and technology alliances, and providing guidance on the direction of the Company's science and technology activities, as appropriate. The current members of the Committee are Dr. Voss and Dr. Braun, each of whom is deemed to be independent under applicable SEC and NASDAQ rules. The Science and Technology Committee's Charter will be approved at its next scheduled meeting in June 2016. In addition, as permitted by its charter, the Committee has selected, as a management member, Dr. Khurshed Anwer, the Company's Executive Vice President and Chief Scientific Officer to assist the committee in the execution of its responsibilities.

ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

This section describes the material elements of compensation awarded to, earned by or paid to Michael H. Tardugno, our Chairman, President and Chief Executive Officer, Jeffrey W. Church, our Senior Vice President and Chief Financial Officer, Nicholas Borys, M.D., our Senior Vice President and Chief Medical Officer and Khurshed Anwer, Ph.D., our Executive Vice President and Chief Science Officer. These individuals are listed in the 2015 Summary Compensation Table below and are referred to in this discussion as the "Named Executive Officers."

Introduction

Celsion is a fully-integrated oncology drug development company focused on developing a portfolio of innovative cancer treatments, including directed chemotherapies, immunotherapies and RNA- or DNA-based therapies. The Company's lead program is ThermoDox®, a proprietary heat-activated liposomal encapsulation of doxorubicin, currently in Phase III development for the treatment of primary liver cancer and in Phase II development for the treatment of recurrent chest wall breast cancer. The Company's pipeline also includes GEN-1, a DNA-based immunotherapy for the localized treatment of ovarian and brain cancers. Celsion has two platform technologies for the development of novel nucleic acid-based immunotherapies and other anti-cancer DNA or RNA therapies, including TheraPlas™ and TheraSilence™.

As a result of the Company's drug development status, it is unlikely, in the short to medium term, to generate revenues and income sufficient to cover product development costs. As a result, the Company's executive compensation philosophy is to align the interests of management and stockholders by emphasizing rewards for Company performance, while remaining competitive with compensation paid by other clinical stage biotechnology companies.

The compensation practices that we have outlined below have been implemented because we believe that they are consistent with our shareholder's interests:

What we do:

- A significant portion of our executive compensation is based on actual Company performance compared to absolute and relative measures and is therefore "at risk";
- Performance shares in our long-term and annual incentive programs are subject to both time and performance vesting requirements;
- Multiple performance metrics between the annual and long-term incentive plans discourage excessive risk-taking by removing any incentive to focus on a single performance goal to the detriment of the Company;
- Appropriate balance between annual and long-term compensation discourages short-term risk taking at the expense of long-term results;
- Our executives are encouraged to acquire and maintain meaningful ownership positions in our Company's common stock;
- Use relevant peer groups in our compensation surveys; and
- Provide reasonable, double trigger change in control arrangements.

Following is a list of compensation practices that we have not engaged in because we do not believe that they are consistent with our shareholders' interests:

What we don't do:

- Re-pricing or backdating of stock options;
- Hedging or engaging in the following transactions that include shares of Common Stock: collars, short sales and other derivative transactions for NEOs or directors;
- Excessive perquisites for executives; and
- Provisions for excise tax gross ups in employment contracts issued.

Stockholder Say-on-Pay Votes

The Company provides its stockholders with the opportunity to cast an advisory vote every three years to approve its executive compensation program (referred to as a “say-on-pay proposal”). At the Annual Meeting of Stockholders held in July 2013, approximately 85% of the votes actually cast on the say-on-pay proposal at that meeting were voted in favor of the Company's executive compensation program. The Compensation Committee believes these results affirmed stockholders' support of the Company's approach to its executive compensation program. In general, the Compensation Committee did not change its approach in 2015 and believes the program in place, as in prior years, includes a number of features that further the goals of the Company's executive compensation program.

In March 2016, the Company and Mr. Tardugno entered into an amended and restated employment agreement, which generally maintained the same terms as set forth in Mr. Tardugno's prior employment agreement, but removed the modified single-trigger provision included in that agreement. Under that provision, Mr. Tardugno was eligible to receive severance following a change in control if Mr. Tardugno elected to terminate his employment for any reason or no reason commencing with the sixth and ending with the twelfth month following the change in control. In accordance with commonly viewed best practices, the parties agreed to remove this provision so that it is longer operative, effective March 30, 2016.

The Compensation Committee will continue to consider the outcome of the Company's say-on-pay proposals when making future compensation decisions for the Named Executive Officers.

The Compensation Committee has adopted the following executive compensation approaches, which the Company believes help to achieve the objectives for the executive compensation program and are generally favored by stockholders:

- A significant amount of the executives' compensation is at-risk. For fiscal year 2015, approximately 58% of Mr. Tardugno's target total direct compensation was performance-based and/or linked to the value of the Company's stock price. As used in this discussion, the term “total direct compensation” means the aggregate amount of the executive's base salary (40%), target annual incentive awards (21%), and long-term equity incentive awards based on the grant-date fair value of such awards as determined under the accounting principles used in the Company's audited financial statements (37%) and all other compensation (2%).
- Executives' bonuses under the Company's annual incentive program are principally based on the achievement of specific performance objectives established at the beginning of the fiscal year by the Compensation Committee.
- Executives' 2015 annual equity awards were granted in the form of stock option awards. We believe the grant of stock option awards further aligns the executives' interests with those of stockholders as the awards will not have value unless the Company's stock price appreciates after the award is granted. The stock option awards also provide a retention incentive as they vest over a multi-year period.
- Executives are also granted stock option and stock awards at the time they join the Company as these provide the same incentives as annual equity awards. These stock option grants and stock awards generally vest over a three to four year period beginning on the first year anniversary of the date of the grant.

Executive Compensation Philosophy and Procedures

The Compensation Committee attempts to design executive compensation programs to achieve three principal objectives.

- The program is intended to attract, motivate and retain talented executives with total compensation that is competitive within the drug development and broader pharmaceutical and biotechnology industry;
- The program is intended to create an alignment of interests between the Company's executives and stockholders such that a significant portion of each executive's compensation varies with business performance and is dependent on stock price appreciation; and
- The program is designed to award behavior which results in optimizing the commercial potential of the Company's development program.

The Compensation Committee's philosophy is to pay competitive total compensation, comprised of annual salaries, annual cash incentives and long-term equity awards (primarily stock options), with a significant percentage of total compensation that is directly linked with the Company's performance. The Compensation Committee considers the elements of the compensation package to be reflective of compensation packages given to executives of companies of similar size in our industry. Compensation packages generally are designed to pay competitive salaries at the median of the industry compensation surveys as described below, reward superior annual performance through incentive compensation awards and allow executives to participate in increases in stockholder value through stock option and other stock-based grants.

In determining executives' compensation levels, the Compensation Committee relies primarily on its experience and judgment to provide a package that it believes appropriately balances the need to attract and retain key executive talent with the creation of incentives that will enhance the growth of the Company and provide value for stockholders. As part of its decision-making process, the Compensation Committee takes into account the role and experience of each executive and reviews industry surveys, (specifically, the Radford Global Life Sciences Survey, which covers a broad cross-section of the biotechnology, pharmaceuticals and life science industries and in which the Company participates) for information on the compensation paid to executive officers by companies in our industry that are similar in size, breadth, stage of development or complexity to the Company. The Compensation Committee will also review custom surveys comparing executive compensation with that of specific peer groups (for example, pre-commercial biopharma public companies, biopharma companies with under 50 employees, biopharma companies with market cap above \$100 million and biopharma companies with a market cap below \$100 million).

In light of the straightforward nature of the Company's executive compensation arrangements, the Compensation Committee believes it has not been necessary to retain independent compensation consultants, and no consultants were retained by the Compensation Committee or the Company for 2015. The Compensation Committee reviews compensation surveys as summarized above with the Chief Executive Officer as it relates to elements of yearly performance and compensation of all members of the executive management team. The Compensation Committee believes that an appropriate level of input from our Chief Executive Officer provides a necessary and valuable perspective in helping the Compensation Committee formulate its own independent views on compensation. The Compensation Committee takes measures to ensure its independence with respect to the Chief Executive Officer's compensation, excusing him from portions of meetings to freely discuss his and the other Named Executive Officers compensation. The Compensation Committee made all final determinations on the compensation levels for all Named Executive Officers.

A discussion of each individual element of compensation and the compensation for each Named Executive Officer for 2015 follows.

Annual Salaries

The Company participates in an ongoing industry survey as described above. The Compensation Committee compares base salary for Company executives with the levels provided to similarly situated executives and generally targets base salaries at levels in the median of the survey data.

In early 2015, after reviewing each executive's job responsibilities, individual performance, our corporate performance, competitive market data and our total compensation expense, the base salaries of Mr. Tardugno, Mr. Church, Dr. Borys and Dr. Anwer were increased by approximately 4%, 4%, 4% and 1.5%, respectively.

Incentive Compensation

The Company has an incentive compensation plan in which all members of our senior management participate. The plan is performance-driven based on Company and personal operational objectives established at the beginning of the year by the Compensation Committee in consultation with the Chief Executive Officer. These operational objectives include the completion of certain development projects, capital raising, cost controls, business development and profit and loss goals, which we believe are ultimately linked to creating stockholder value. These objectives are designed to achieve timely and efficient product development including completion of clinical studies and regulatory approvals. Each member of senior management is individually evaluated based on the achievement of the Company's overall operational objectives and each individual's personal performance against these objectives. This component of compensation is provided, among other reasons, to create incentives for members of senior management to meet short and medium term performance goals of the Company, without regard to stock price. Objectives are weighted in terms of overall importance to meeting the Company's operating plan.

The total annual incentive compensation a member of senior management can earn is based on his level within management, with more senior members of management eligible to earn a higher percentage of their base salary as incentive compensation than less senior members. We believe it is appropriate for executives to have a greater percentage of their compensation “at-risk” based on performance as they generally have a greater role in the achievement of objectives that we believe promote the growth of the Company and the creation of value for stockholders. The actual amount of incentive compensation paid to any member of senior management is determined on a sliding scale dependent on how successful such member of senior management was in achieving the objectives upon which his or her incentive compensation was targeted and the relative importance to the Company of the objectives achieved. The Compensation Committee retains complete discretion to adjust any incentive compensation down and retains discretion as to whether to grant any incentive compensation to any individual member of senior management at all.

Under the incentive compensation plan for 2015, the Compensation Committee established a number of annual corporate goals identified below that include research and development, regulatory, manufacturing, organizational and financial goals which we believe are essential to building shareholder value. The relative weighting of these corporate goals is based upon our assessment of the importance of each goal in creating value for the Company and our stockholders. If all of the stated goals were achieved, the overall corporate performance rating would have been 100%. Each corporate goal was established so that significant levels of achievement were required to meet the goal. Following the conclusion of the annual performance period, the level of achievement for each corporate goal was assessed by the Compensation Committee. The Compensation Committee determined whether each corporate goal had been met, exceeded, or not satisfied. In addition, in assessing corporate performance, the Compensation Committee had the discretion to factor in other significant corporate events that occurred during the performance period which could have resulted in an upward or downward adjustment in the determination of corporate performance. After taking into account the level of attainment of each corporate goal and other appropriate corporate performance factors, the Compensation Committee assigned the overall corporate performance rating, which could have ranged from 0% to 100%. A maximum bonus pool is established by multiplying the overall corporate performance rating by the aggregate target bonuses for all individuals in the incentive plan. Certain individual downward adjustments may be made at the discretion of the Compensation Committee. The aggregate of all individual bonuses awarded under the policy cannot exceed the maximum bonus pool available such that the cost of bonuses ultimately reflects our overall performance and is not inflated by any individual performance rating.

After the corporate performance rating is determined by the Compensation Committee, the individual performance of each Named Executive Officer is reviewed by the Compensation Committee in consultation with Mr. Tardugno in order to determine the appropriate annual performance percentage rating to be assigned to the executive for the performance period. Each Named Executive Officer’s actual annual performance-based incentive compensation payment is based on a combination of our corporate performance rating and his or her individual performance rating. The actual annual performance bonus compensation award for each Named Executive Officer is determined in our sole discretion, and the maximum payout for each Named Executive Officer could be up to 100% of his or her target annual performance-based compensation target.

The Named Executive Officers were each assigned a target annual incentive for 2015 ranging from 40% to 100% of base salary. The table below shows the target annual incentive assigned to each Named Executive Officer for 2015 both as a dollar amount and as a percentage of base salary.

Name	Target Annual Incentive for Entire 2015 Year(\$)	Target Annual Incentive for Entire 2015 Year (% of Base Salary)
Michael H. Tardugno	\$ 484,080	100%
Jeffrey W. Church	128,762	40%
Nicholas Borys	144,944	40%
Khursheed Anwer	120,988	40%

The following 2015 corporate objectives and relative weightings assigned to each objective include the completion of certain development projects, capital raising, cost controls, business development and profit and loss goals, which we believe are ultimately linked to creating stockholder value. These objectives are designed to achieve timely and efficient product development including completion of clinical studies and regulatory approvals.

1. Research and Development objectives to enroll patients and activate sites in the Phase III clinical trial of ThermoDox® for treatment of primary liver cancer (the OPTIMA Study) (15%).
2. Research and Development objectives to close out the Phase I/II study of ThermoDox® for treatment of recurrent chest wall breast cancer (RCW) in the U.S. (the US Dignity Study) and initiate a Phase II study of RCW in Europe (the EU-Dignity Study) (10%).
3. Research and Development objective to launch an early access program in the European Union (10%).
4. Research and Development objective to initiate a neoadjuvant Phase I Study of GEN-1 in ovarian cancer (the OVATION Study) (15%).
5. Research and Development objective to file a Phase I Study protocol of GEN-1 in combination with Avastin® in ovarian cancer with the FDA (5%).
6. Research and Development objective to file an Investigational New Drug application and begin enrollment in a Phase I Study of GEN-1 in glioblastoma cancer (15%).
7. Financial objectives to manage cash and operating expenses, ensure cash flows are within 10% of plan and maintain sufficient levels of cash to achieve necessary run way to fund operations (20%).
8. Corporate development objectives to implement current plans to provide succession of senior management and expand the Board of Directors, thereby increasing our core competencies (10%).

These performance objectives served as the corporate performance objectives under the incentive compensation plan for 2015. Research and development goals comprised 70% of the corporate performance objectives for 2015, with an additional 30% relating to financial and corporate development objectives that we believe were critical to the development of our drug candidate pipeline. We believe this mix of corporate goals was not only an appropriate measure of achievement in 2015, but also represents objectives important to building the long-term foundation of our business.

A report of the achievement of our 2015 corporate objectives was prepared by our executive management team and was then reviewed and assessed by the Compensation Committee. Based on this review and assessment, the Compensation Committee determined that two of the corporate goals identified above (4 and 8) were met. Four goals (1, 2, 3 and 7) were not fully met and partial credit was given for these goals. Partial credit was given based on the level of achievement that, while not meeting the full corporate objective, nevertheless represented significant achievement towards that objective that the Compensation Committee determined warranted a proportional award. Two goals (5 and 6) were not met; therefore no credit was given for these goals. The Compensation Committee also determined that significant accomplishments outside of established corporate objectives, including the Company's progress in certain partnerships and collaborations, advances in clinical development, and attainment of certain financial objectives, should be factored into the determination of the corporate performance rating. Accordingly, the Compensation Committee determined in its judgment that the corporate performance rating under the incentive compensation plan was 75% for 2015 and that the maximum bonus pool for 2015 would be funded at 65% of the target bonus level. The bonuses awarded to the Named Executive Officers for 2015 fell within the guidelines we established under the incentive compensation plan.

Each of the Named Executive Officers participated in the annual incentive plan for 2015. The target bonus amount for each executive was established pursuant to his employment agreement. In February 2016, after consideration of the corporate objectives and maximum bonus pool as previously discussed, the Compensation Committee determined to award each of Mr. Tardugno, Mr. Church, Dr. Borys and Dr. Anwer a 2015 bonus equal to 53%, 62%, 54% and 51.5% of each executive's target bonus award, respectively, based on the performance of the Company and the executive's individual performance during the year. These amounts are reported in the "Non-Equity Incentive Plan Compensation" column in the 2015 Summary Compensation Table below and were paid in the first quarter of 2016.

In addition to the annual incentive bonus award for 2015, Mr. Church received a special independent performance bonus totaling \$20,000 for assuming additional business development opportunities. In addition, Mr. Church and Dr. Borys received special performance bonuses of \$15,000 and \$7,500, respectively, in recognition of outstanding individual efforts to achieve the Company's 2015 objectives.

Stock-Based Compensation

The Company grants long-term equity awards to its executives and other employees that are designed to align the interests of Company employees and its stockholders, encouraging participants to maintain and increase their ownership of Company Common Stock with the opportunity to benefit from the Company's long-term performance. The Company's equity program has generally consisted of grants of stock options and occasional grants of stock awards. Because the exercise price of the options is based on the market price of the Company's Common Stock on the date of grant, the Compensation Committee believes that options help to align the interests of the Company's executives with those of its stockholders as the options will not have value unless there is appreciation in the Company's stock price. The options also serve as a retention tool since they generally vest over a two to four year period following the grant date. This approach is designed to focus key employees on sustainable growth of the Company and the creation of stockholder value over the long term.

Annual grants to the Named Executive Officers are generally made during the first quarter of the fiscal year. Annual Grants are determined by the Committee based on their review of each individual's past performance as well as their potential impact on the Company's future performance. Grants may also be made at other times during the fiscal year in certain circumstances (such as a grant in connection with the hiring or promotion of an executive or other special circumstance as deemed appropriate by the Compensation Committee). In March 2015, the Compensation Committee approved annual grants of stock options to each of the Named Executive Officers. Prior to June 2015, the 2007 Stock Option Plan limited the number of stock option grants and stock awards to any individual in any one year at 200,000 shares. As the result of this limitation, a total of 65,000 of the 265,000 option awards granted to Mr. Tardugno in 2014 were required to be canceled and returned to the 2007 Stock Option Plan. At the 2015 Annual Shareholder Meeting, the Company's shareholders approved an increase to this annual limit from 200,000 shares to 300,000 shares. In June 2015, the Compensation Committee approved a stock option grant totaling 65,000 shares to Mr. Tardugno as a replacement for those 2014 options that were cancelled.

Other Compensation

Executive officers are eligible to participate in our medical and other welfare benefit plans and for other benefits, in each case on generally the same basis as other employees. We maintain a 401(k) plan for our employees. Other than the 401(k) plan, we do not offer any of our employees a pension plan, retirement plan or other forms of compensation paid out upon retirement.

Post-Employment Obligations

The Company believes that severance protections, particularly in the context of a change in control transaction, can play a valuable role in attracting and retaining key executive officers. Under their employment agreements, each of the Named Executive Officers would be entitled to severance benefits in the event of a termination of employment by the Company without cause. The Company has determined that it is appropriate to provide the executives with severance benefits under these circumstances in light of their positions with the Company and as part of their overall compensation package.

The Company believes that the occurrence, or potential occurrence, of a change in control transaction will create uncertainty regarding the continued employment of the Company's executive officers as many change in control transactions result in significant organizational changes, particularly at the senior executive level. In order to encourage the Company's executive officers to remain employed with the Company during an important time when their prospects for continued employment following the transaction may be uncertain, the Company provides Mr. Tardugno, Mr. Church and Dr. Borys with enhanced severance benefits if his employment is actually or constructively terminated by the Company without cause in connection with a change in control.

In March 2016, the Company and Mr. Tardugno entered into an amended and restated employment agreement, which generally contained the same terms as set forth in Mr. Tardugno's prior employment agreement, but removed the modified single-trigger provision included in that agreement. Under that provision, Mr. Tardugno was eligible to receive severance following a change in control if Mr. Tardugno elected to terminate his employment for any reason or no reason commencing with the sixth and ending with the twelfth month following the change in control. In accordance with commonly viewed best practices, the parties agreed to remove this provision so that it is longer operative, effective March 30, 2016.

Tax Considerations

The Compensation Committee also considers the tax impact of the compensation provided to the Named Executive Officers. Under U.S. tax law, publicly-held companies may be precluded from deducting certain compensation paid to a company's chief executive officer and three other most highly compensated executive officers (other than the chief financial officer) in excess of \$1.0 million in a year. The regulations exclude from this limit certain performance-based compensation, including stock options, provided certain requirements are satisfied. The Company's intent generally is to design and administer executive compensation programs in a manner that will preserve the deductibility of compensation paid to the Company's executive officers. However, the Company reserves the right to make compensation decisions that do not meet the standards of Section 162(m) of the Code when deemed necessary to enable the Company to continue to attract, retain, and motivate highly-qualified executives officers.

NARRATIVE DISCLOSURE TO EXECUTIVE SUMMARY COMPENSATION TABLE

Employment Agreements

The Company and Mr. Tardugno entered into an employment agreement, effective March 30, 2016, which superseded the previous employment agreements with Mr. Tardugno. In March 2016, the Company and Mr. Tardugno entered into an amended and restated employment agreement, which generally maintained the same terms as set forth in the December 2014 agreement, but removed the modified single-trigger provision included in the agreement. Under that provision, Mr. Tardugno was eligible to receive severance following a change in control if Mr. Tardugno elected to terminate his employment for any reason or no reason commencing with the sixth and ending with the twelfth month following the change in control. In accordance with commonly viewed best practices, the parties agreed to remove this provision so that it is no longer operative, effective March 30, 2016. The following narrative describes the terms of the December 2014 employment agreement, as in effect on December 31, 2015.

Subject to earlier termination pursuant to the terms of the December 2014 agreement, the initial term of the agreement ends on January 31, 2018, with automatic one year renewals thereafter, unless either party provides a notice of non-renewal. Mr. Tardugno's December 2014 agreement provides for an initial annual base salary of \$465,462, subject to annual adjustment by the Board of Directors of the Company or the Compensation Committee. Mr. Tardugno is also eligible for an annual performance bonus from the Company, pursuant to the Company's management incentive bonus program in effect from time to time. The amount of such bonus will be determined by the Board or the Compensation Committee in its sole and absolute discretion and will not exceed 100% of the then-current base salary except pursuant to a specific finding by the Board or the Compensation Committee that a higher percentage is appropriate. Under the December 2014 agreement, the Company agreed to grant to Mr. Tardugno, at the time of its usual annual grant to employees, annual stock options to purchase shares of the Company's common stock as the Board or the Compensation Committee shall determine.

In the event, (A) that the Company terminates the agreement other than for "cause" (as defined in the agreement) or (B) Mr. Tardugno terminates the agreement upon the occurrence of: (i) a material adverse change in his duties or authority; (ii) a situation in which he is no longer at least one of the President or the Chief Executive Officer of the Company; (iii) a bankruptcy filing or similar action by or against the Company; or (iv) another material breach of the Agreement by the Company (each, a "Triggering Event"), or (C) the agreement terminates for nonrenewal, Mr. Tardugno will be entitled to receive a severance payment equal to his base annual salary at the time of termination (the "Severance Amount"), payable in accordance with the Company's normal payroll practices, COBRA premiums for up to twelve months and may generally exercise any vested options through the remainder of their original terms.

In the event of termination of his employment upon a Triggering Event within two years following a "change in control" (as described below), or, if within such two-year period (i) there is a material adverse change in his compensation or benefits, or (ii) any successor to the Company does not assume the Company's obligation under the agreement, and he terminates his employment, Mr. Tardugno is entitled to a lump sum severance payment equal to the Severance Amount and any previously unvested options granted to Mr. Tardugno and covered by the employment agreement shall immediately vest and remain fully exercisable through the remainder of their original maximum terms and otherwise in accordance with their respective original terms.

In the event of termination of his employment upon a Triggering Event within two years following a "change in control" (as described below), or, if within such two-year period (i) there is a material adverse change in his compensation or benefits, or (ii) any successor to the Company does not assume the Company's obligation under the agreement, and he terminates his employment, Mr. Tardugno is entitled to a lump sum severance payment equal to the Severance Amount and any previously unvested options granted to Mr. Tardugno and covered by the employment agreement shall immediately vest and remain fully exercisable through the remainder of their original maximum terms and otherwise in accordance with their respective original terms. The December 2014 agreement also provided that such severance is payable following a change in control if Mr. Tardugno elects to terminate his employment for any reason or no reason commencing with the sixth and ending with the twelfth month following the change in control; however, as noted above, this provision is no longer operative as of March 30, 2016. Under the December 2014 agreement, a "change in control" is deemed to occur: (i) if any person becomes the direct or indirect beneficial owner of more than 50% of the combined voting power of the Company's then-outstanding securities; (ii) there is a change in a majority of the directors in office during any twenty-four (24) month period; (iii) the Company engages in a recapitalization, reorganization, merger, consolidation or similar transaction after which the holders of the Company's voting securities before the transaction do not continue to hold at least 50% of the voting securities of the Company or its successor after the transaction; or (iv) upon the complete liquidation or dissolution of the Company or the sale or other disposition of substantially all of its assets after which the holders of the Company's voting securities before such sale or disposition do not continue to hold at least 50% of the voting securities of the Company or its successor after such sale or disposition.

In the event that Mr. Tardugno is terminated for cause or is receiving severance payments contemplated under the employment agreement, Mr. Tardugno shall, among other things, not provide any services, directly or indirectly, to any other business or commercial entity in the Company's "Field of Interest" (as such term is defined in his employment agreement), solicit any customers or suppliers of the Company, directly or indirectly, or employ or seek to employ an employee of the Company for a period of two years following the date of termination. In addition, at no time during the term of the employment agreement or thereafter will Mr. Tardugno knowingly make any written or oral untrue statement that disparages the Company. Mr. Tardugno is also subject to confidentiality provisions in his employment agreement.

The Company and Dr. Borys entered into an employment offer letter on August 23, 2007, pursuant to which Dr. Borys agreed to serve as the Vice President and Chief Medical Officer of the Company. Under the terms of the offer letter, the Company agreed to pay Dr. Borys an annual starting salary of \$270,000, subject to annual review. Dr. Borys is also eligible for an annual bonus, with a target of 35% of his annual base salary, conditioned on his and the Company's performance against key performance objectives, and annual discretionary stock option awards. In connection with his promotion to Senior Vice President in June 2014, Dr. Borys' target bonus was increased to 40%. Dr. Borys' employment with the Company is "at-will"; however, subject to a retention agreement the Company provided to Dr. Borys on February 19, 2013, if the Company terminates Dr. Borys' employment for any reason other than just cause, the Company will pay Dr. Borys a salary continuation and COBRA premiums for up to six months. The salary and COBRA premiums will cease at the end of the six-month period or, if he finds new employment prior to the end of the six month period, the benefit will be reduced by the amount of compensation which he will receive from any new employer.

The Company and Mr. Church entered into an employment offer letter on June 15, 2010. Pursuant to the offer letter, Mr. Church will receive a starting base salary of \$250,000 and will be eligible for an annual bonus, with a target of 35% of his annual base salary, conditioned on his and the Company's performance against key business objectives. In connection with his promotion to Senior Vice President in July 2011, Mr. Church's target bonus was increased to 40%. Mr. Church's employment is "at-will"; however, if the Company terminates Mr. Church for any reason other than just cause, the Company will pay Mr. Church a salary continuation and COBRA premiums for up to six months. The salary and COBRA premiums will cease at the end of the six month period or if he finds new employment prior to the six month period, the benefit will be reduced by the amount of compensation which he will receive from any new employer.

The Company and Dr. Anwer entered into an employment offer letter effective as of June 20, 2014. Pursuant to the offer letter, Dr. Anwer will receive a starting base salary of \$298,000 and will be eligible for an annual incentive bonus, with a target of 40% of his annual base salary contingent upon meeting personal goals and the Company's objectives established by the Company. The Compensation Committee will determine his actual bonus amount each year. Dr. Anwer's employment with the Company is "at-will"; however, subject to the retention and severance agreement, if the Company terminates Dr. Anwer's employment without cause (as such term is defined in the retention and severance agreement), he will be entitled to receive cash severance equal to 12 months of his base salary and reimbursement of his COBRA premiums for up to 12 months. Dr. Anwer's right to receive these severance benefits is subject to his providing a release of claims in favor of the Company.

Change in Control Agreements

In November 2011, the Company entered into change in control severance agreements (CIC Agreements) with each of the Named Executive Officers (other than Dr. Anwer), to provide severance benefits to these executives should their employment terminate in certain circumstances in connection with a change in control of the Company. The following summary is qualified in its entirety by the provisions of the CIC Agreement.

Under the CIC Agreement, in the event that the Company terminates the executive's employment without cause or in the event that the executive terminates his employment for good reason, in either case on or within two years after a change in control of the Company, the executive would be entitled to receive a cash lump sum payment equal to the sum of (1) the executive's annual base salary and (2) the executive's target annual bonus for the fiscal year in which the termination occurs. (For these purposes, the terms "cause," "good reason" and "change in control" are each defined in the CIC Agreement.) In addition, the Company will pay or reimburse the executive for the cost of COBRA premiums and life insurance coverage for the executive and his eligible dependents, in each case for a period of up to one year following the termination. The executive would also be entitled to full acceleration of his then-outstanding equity awards granted to him by the Company. However, as to any equity award agreement that is subject to performance-based vesting requirements, the vesting of such award will continue to be governed by its terms. In the case of options or similar awards, the award would generally remain exercisable for the remainder of the original term of the award (or, in the case of awards that vested after the date of the change in control, for the lesser of 12 months following the last day such award would have been exercisable under the applicable award agreement and the remainder of the original term). The benefits provided under the CIC Agreement are in addition to, and not in lieu of, any severance benefits the executive may be entitled to receive in connection with the termination of his employment under any other agreement with the Company. The executive's right to benefits under the CIC Agreement is subject to his executing a release of claims in favor of the Company upon the termination of his employment.

Material Terms of Option Grants During 2015

Each of the stock options awarded to the Named Executive Officers in 2015 and reported in the 2015 Grants of Plan-Based Awards Table below was granted under, and is subject to, the terms of the 2007 Plan. The 2007 Plan is administered by the Compensation Committee, which has authority to interpret the plan provisions and make all required determinations under the plan. This authority includes making required proportionate adjustments to outstanding awards upon the occurrence of certain corporate events such as reorganizations, mergers and stock splits, and making provision to ensure that any tax withholding obligations incurred in respect of awards are satisfied. Awards granted under the plan are generally only transferable to a beneficiary of a Named Executive Officer upon his death. Under the terms of the 2007 Plan, if there is a change in control of the Company, each Named Executive Officer's outstanding awards granted under the plan will generally terminate, unless the Compensation Committee provides for the substitution, assumption, exchange or other continuation or settlement (in cash, securities or property) of the outstanding awards. The Compensation Committee has discretion to provide for outstanding awards to become vested in connection with a change in control.

Each option granted to the Named Executive Officers in 2015 was granted with a per-share exercise price equal to the closing price of our Common Stock on the grant date. Each option is scheduled to vest in three installments, with one-third vesting on the date of grant and the balance vesting in annual installments over each of the next two years, subject in each case to the executive's continued employment through the applicable vesting date, and has a maximum term of ten years. However, vested options may terminate earlier in connection with a change in control transaction or a termination of the Named Executive Officer's employment. Subject to any accelerated vesting that may apply in the circumstances, the unvested portion of the option will immediately terminate upon a termination of the Named Executive Officer's employment.

Director Independence

In addition, in accordance with the rules of the SEC and NASDAQ, the Company requires that at least a majority of the directors serving at any time on the Board of Directors be independent, that at least three directors satisfy the financial literacy requirements for service on the Audit Committee and that at least one member of the Audit Committee qualify as an "audit committee financial expert" under those rules.

The Board of Directors has determined that Mr. Fritz is qualified to serve as the "audit committee financial expert" as defined by Item 407(d)(5) of Regulation S-K and that Mr. Fritz and Drs. Chow and Martinez meet the financial literacy requirements under applicable SEC and NASDAQ rules. The Board of Directors has also determined that of the seven currently serving directors, six directors (Drs. Augustine Chow, Alberto R. Martinez, Donald P. Braun, Andreas Voss and Messrs. Robert W. Hooper and Frederick J. Fritz) are independent under applicable SEC and NASDAQ rules. Mr. Fritz acts as the chairman of our Audit Committee. In considering the independence of the non-employee Directors nominated for election, each of Dr. Braun and Dr. Voss has no relationship with the Company other than as a Director and are independent.

AUDIT COMMITTEE POLICY ON APPROVAL OF AUDIT AND NON-AUDIT SERVICES

It is the policy of the Audit Committee to pre-approve all audit and permissible non-audit services provided by the Company's independent accountants, in accordance with rules prescribed by the SEC. These services may include audit services, audit-related services, tax services, and other services. Pre-approval is based on a written proposal, accompanied by a cost estimate and estimated budget. The Audit Committee has delegated to its Chairman the authority to pre-approve audit and non-audit services with an estimated cost of up to \$25,000, provided the exercise of such authority is reported to the Audit Committee at its next regular meeting. The Audit Committee reserves the right, from time to time, to delegate pre-approval authority to other of its members, so long as such members are independent directors.
